

(f) *Loan* means any extension of credit or lease resulting from direct negotiations between a lender and a borrowing entity that is recorded as an asset of an insured bank, a direct lending association, or an other financing institution. The term “loan” includes loans, contracts of sale, notes receivable, and other similar obligations and lease financings. The term “loan” includes loans originated through direct negotiations between the insured bank, direct lending association, or other financing institution and a borrowing entity and loans or interests in loans purchased from another lender. Loans purchased subject to recourse shall be considered loans of the seller to the extent of the recourse.

(g)(1) *Nonaccrual loan* means any loan where—

(i) Any amount of outstanding principal and all past and future interest accruals, considered over the full term of the asset, are determined to be uncollectible for any reason; or,

(ii) It has been classified “loss” as a result of a periodic credit evaluation and has not been charged off; or,

(iii) The loan is severely past due and is not adequately secured, in process of collection, and fully collectible with respect to all principal and interest.

(2) For the purposes of determining whether a loan is considered as accrual or nonaccrual under this part, all loans on which a borrowing entity, or a component of a borrowing entity, is primarily obligated to the institution shall be considered as one loan unless a review of all pertinent facts supports a reasonable determination that a particular loan constitutes an independent credit risk and such determination is adequately documented in the loan file.

(h) *Other financing institution* means any bank, company, institution, corporation, union, or association described in section 1.7(b)(1)(B) of the Act.
